Are you trying to restore your machine? Do you need new cabinet prints installed? Do you need an exchange on the field? Stock 30+ machines ready for delivery today. We ship anywhere in the USA.1 Machine \$390, two for \$420.KickAss Pinball128 Loj StPickerinton, Ohio43147614.937.3228ErikHohler@kickasspinball.comWebMaster EZ E First, let's find out what type of game you have. Electro-Mechanical (EM) games have numbered scoring cylinders, while Solid-State (SS) games have digital scoring displays. Most games produced before 1979 are EM. How much does it cost to repair a pinball machine or bowling alley? It is difficult to know how long the repair will take without knowing the extent of the problem. Simple fixes usually take an hour. Repairing fixed-state games takes an average of about 2 hours, and EM games can average 4 hours (longer if they haven't been used or if they've been stored in a damp place). Our price is based on travel fee and hourly work, plus parts. If necessary, What kind of preventive maintenance will I need? For EM games, the best thing you can do is play them often, keep them running smoothly, and keep them dry. For fixed-state games, make sure to replace the batteries once a year. What batteries? There are 3 AA batteries on the CPU board (yes, there is an electronic brain in your pinball machines!). If you don't know how and when they were last changed, call us to schedule a service before they leak and become costly repairs. Which brands do you service? Pro EM Games - All brands. For Solid-State pinball machines - BALLY, WILLIAMS, SEGA, STERN, and DATA EAST. We do not service Gottlieb solid-state games because they do not use many of the same parts. For arcade bowling or shuffle alley games, we will be servicing BALLY, UNITED, CHICAGO COIN, WILLIAMS and a few others. Do you sell parts? Sorry, we don't sell parts. For our service customers we store a small inventory of thousands of different parts. There are many reputable parts dealers online. If you only need one part, it's usually cheaper on eBay because of shipping costs. Are you buying games or can you help us sell? We don't buy games, but we know other pinball enthusiasts and help customers find a buyer. We can evaluate your game and provide a fair market value range for your attention if you are considering a sale. What is a shopping pinball machine? Shopping pinball machine often refers to that tune-up, but this mainly involves playground areas. This means removing most plastics and kits from the pitch, cleaning and waxing the surface, replacing all rubber parts, bulbs and missing hardware. Testing all coils and switches for proper operation. Shopping games can take 1-1/2 to 3 hours depending on the complexity of the pitch. We can buy your game and have it and play as almost new. Are you moving games? We no longer offer relocation services due to a previous back injury. Moving game is a 2-man job and requires good furniture dolly. If you plan to move the pinball machine, first remove all loose parts of the part inside the game, including the ball(s). If you need help, we recommend that you contact the furniture mover. TILT amusements is #1 a great resource for pinball enthusiasts, site managers and home pinball seekers to browse, buy, solve problems and learn more about pinball machines. Whether you maintain a fleet of machines in multiple states or are looking to buy your first pinball for your family, TILT Amusement is happy to help. We are owned and operated by pinball enthusiasts, we love pinball, and we want to cultivate that enthusiasm in other people. Pinball for enthusiasts, enthusiasts. What makes a man a pinball enthusiast? Many people love pinball and enjoy playing games for challenge, fun exploration, bragging rights - and in our highly digitized age the pinball machine is the perfect combination of computer technology and physical (sometimes very physical if you've ever performed one up the stairs) interaction. If you remember playing them as a kid, or have fond memories of that cool uncle who had one in his basement, then get it. Pinball occupies most of the day, every day, for us - buying, selling, repairing, installing, and most importantly, PLAYING - we participate in tournaments around the world several times a year. Playing, and wanting to play, is what's most important - not how well or how many machines you own. Choose a selection of navigation and check out available new and used pinball machines and other amusements, browse through photos of machines and various pinball tournaments and other events, or get advice on how best to maintain your machines. Be sure to check out the advice in the Service section of Q&A if you have a problem with the machine or if you are just wondering what makes pinball machines tick. If you have any questions, problems or problems, be sure to send us feedback using the Contact Us form. Dear customers: Our showroom is now open! At present, however, we do not accept any repairs to the houses. Thank you and STAY SAFE & HEALTHY! -Pinball Shoppe Family-For 41 years, (YES! 41 YEARS!) About search resultsO search resultsYP - The Real Yellow PagesSM - will help you find the right local businesses to suit your specific needs. Search results are sorted by a combination of factors that give you a set of options in response to search criteria. These factors are similar to those you can use to determine which business to choose from the on-premises Yellow Pages directory, including proximity to where you're looking, expertise in the specific services or products you need, and comprehensive business information to help you evaluate your business suitability. Preferred listings or lists with recommended website buttons indicate YP advertisers who directly provide information about their businesses to help consumers make more informed purchasing decisions. Access service advertisers get a higher ranking in the default search results order and can appear in sponsored listings at the top, side, or bottom of the search results page. SORT:DefaultDefaultDistanceRatingName (A - Z)Please contact your company for updated hours/services due to covid-19 advice. Map View Does anyone have a recommendation for Columbus/Central Ohio Pinball TECH? I'm a (very) slightly skilled pinball machine DIY guy. I could definitely use pinball tech that makes house calls. Recommendations? Good luck finding. I know a good dude in NW Ohio if you're ever desperate! I'd like to know him, too. Trent And he's doing some work if you can catch him. I think the biggest operator in Columbus is TNT (not to be confused with Philly TNT). It's Therese and Tom. . SUPER nice guy and is constantly servicing his route games at Pins Mechanical. 16-Bit.... prob some more. You for the recommendation. I'll check on them. TNT makes services/home calls, around \$100/hour. Tom & Therese are nice people. I don't know that Trent does a lot in the way of repairs for other people - he's more of a buy-sell little guy. What are you going to do at the game? A couple of times I looked at that techs service game, I found it better to just learn something on my own and/or discuss issues with local tech-inclined pin friends. Quoted from Collin: TNT makes services/home calls, around \$100/hour. Tom & Therese are nice people. I don't know that Trent does a lot in the way of repairs for other people - he's more of a buy-sell little guy. What are you going to do at the game? A couple of times I looked at that techs service game, I found it better to just learn something on my own and/or discuss issues with local tech-inclined pin friends. Agree. Also, there are many Pinsiders who are willing to help if you are willing to try on your own. I understand that guys would rather just call tech. I love helping out when I can. My time is very limited with all boards I have spinning. But there is a really big pin community in Columbus. Let's see if we can get you started, so repairing if it happens is cheaper. Thanks for joining. I would love to be involved in the local pinball community. I'm not afraid, too. I try to repair/edit most items, but sometimes the repair is slightly larger than my minimum skills. I just dropped my still in the non air conditioning garage to let JM off at Tilt Amusement in Ostrander Ohio. The machine needs a full pass and optos and switches modified, possibly replaced. I have high hopes that this will be a good experience. They looked nice, good and capable. I'll update as it progresses. Progresses.
